Remove tops and rinse containers. Please crush containers

NO

Motor oil bottles or other petroleum containers, plastic wrap, or Styrofoam, bags, or film.

Recyclables are collected every week for the town of Rumford.

If a holiday falls during the week, collection is delayed one day.

Safe Disposal of Needles

Disposal of Medical Needles (ie: Insulin Syringes)

The safest way to dispose of used needles is in a "sharps" container. Sharps containers are available for purchase at many pharmacies and some companies offer "mail-in" programs for used needles.

If you are unable to purchase a sharps container, obtain a sturdy, puncture-resistant container such as an empty detergent or bleach bottle or an empty coffee can.

Drop used lancets, needles and syringes in container immediately after use.

Dispose of syringes as one unit - do not attempt to break needle off.

Do not attempt to remove, bend, or recap needle.

Store container out of reach of children.

Tightly seal container when 3/4 full.

Reinforce lid with heavy duct or electrical tape (completely cover lid to discourage people from opening or recycling the container).

Dispose of completely sealed container in the trash (be sure to place it in a trash bag first).

***Never** dispose of needles, sharps containers, or homemade needle containers in the recycling bin!

DON'T FLUSH YOUR MEDS!

Located at the Rumford Police Station

HOUSEHOLD HAZARDOUS WASTE

Leftover household products that contain corrosive, toxic, ignitable, or reactive ingredients are considered to be "household hazardous waste" or "HHW." Products, such as fertilizers, cleaners, oils, batteries, and pesticides, that contain potentially hazardous ingredients require special care when you dispose of them. Improper disposal of these wastes can pollute the environment and pose a threat to human health. For more information on safe disposal of these materials contact the River Valley Healthy Communities at 364-7408

NEW PROGRAM TO COLLECTION PAINT PRODUCTS

Beginning October 26, 2015

Paint must be in its original container and the container must have a label and a secured lid. We cannot accept open or leaking cans. Please review the following detailed list to find out what can be accepted prior to dropping off your paint at the Transfer Station/Recycling Center in Mexico.

- Interior and exterior architectural paints - latex, acrylic, water-based, alkyd, oil based, enamel
- Deck coating, floor paints
- Primers, sealer, under coaters
- Stains
- Shellacs, lacquers, varnishes, urethanes
- Waterproofing concrete/masonry/wood sealers and repellents (not tar or bitumen-based)
- Metal coatings, rust preventatives
- Field and lawn paints.

FOR MORE INFORMATION CALL 364-3645
