INDEPENDENT AUDITORS' REPORT

Board of Selectmen
Town of Rumford
Rumford, Maine

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, business-type activities, each major fund and the aggregate remaining fund information of the Town of Rumford, Maine, as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the Town of Rumford, Maine's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates

made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, each major fund and the aggregate remaining fund information of the Town of Rumford, Maine as of June 30, 2018, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information and pension and OPEB information on pages 4 through 11 and 66 through 72 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Rumford, Maine's basic financial statements. The Budgetary Comparison Schedule - Budgetary Basis - Budget and Actual - General Fund Revenues, Schedule of Departmental Operations - General Fund, combining and individual nonmajor fund financial statements and capital asset schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Budgetary Comparison Schedule - Budgetary Basis - Budget and Actual - General Fund Revenues, Schedule of Departmental Operations - General Fund, combining and individual nonmajor fund financial statements and capital asset schedules are the responsibility of management and were derived from and related directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Budgetary Comparison Schedule - Budgetary Basis - Budget and Actual - General Fund Revenues, Schedule of Departmental Operations - General Fund, combining and individual nonmajor fund financial statements and capital asset schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated March 29, 2019, on our consideration of the Town of Rumford, Maine's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town of Rumford, Maine's internal control over financial reporting and compliance.

**REQUIRED SUPPLEMENTARY INFORMATION
MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2018**

(UNAUDITED)

The following management's discussion and analysis of the Town of Rumford, Maine's financial performance provides an overview of the Town's financial activities for the fiscal year ended June 30, 2018. Please read it in conjunction with the Town's financial statements.

Financial Statement Overview

The Town of Rumford's basic financial statements include the following components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also includes required supplementary information which consists of the general fund budgetary comparison schedule, pension and OPEB information and other supplementary information which includes combining and other schedules.

Basic Financial Statements

The basic financial statements include financial information in two differing views: the government-wide financial statements and the fund financial statements. These basic financial statements also include the notes to financial statements that explain in more detail certain information in the financial statements and also provide the user with the accounting policies used in the preparation of the financial statements.

Government-Wide Financial Statements

The government-wide financial statements provide a broad view of the Town's operations in a manner that is similar to private businesses. These statements provide both short-term as well as long-term information in regards to the Town's financial position. These financial statements are prepared using the accrual basis of accounting. This measurement focus takes into account all revenues and expenses associated with the fiscal year regardless of when cash is received or paid. The government-wide financial statements include the following two statements:

The Statement of Net Position – this statement presents *all* of the government's assets, deferred outflows of resources, liabilities and deferred inflows of resources with the difference being reported as net position.

The Statement of Activities – this statement presents information that shows how the government's net position changed during the period. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows.

Both of the above mentioned financial statements have separate columns for the two different types of Town activities. The types of activities presented for the Town of Rumford are:

- *Governmental activities* – The activities in this section are mostly supported by taxes and intergovernmental revenues (federal and state grants). Most of the Town's basic services are reported in governmental activities, which include general government, public safety, public works, health and sanitation, welfare, public services, social services, education and unclassified.
- *Business-type activities* – These activities are normally intended to recover all or a significant portion of their costs through user fees and/or charges to external users for goods and/or services. These activities for the Town of Rumford include the sewer fund.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town of Rumford, like other local governments uses fund accounting to ensure and demonstrate compliance with financial related legal requirements. All of the funds of the Town of Rumford can be divided into two categories: governmental funds and proprietary funds.

Governmental funds: Most of the basic services provided by the Town are financed through governmental funds. Governmental funds are used to account for essentially the same functions reported in governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, the governmental fund financial statements focus on near-term inflows and outflows of spendable resources. They also focus on the balance of spendable resources available at the end of the fiscal year. Such information will be useful in evaluating the government's near-term financing requirements. This approach is known as the current financial resources measurement focus and the modified accrual basis of accounting. Under this approach, revenues are recorded when cash is received or when susceptible to accrual. Expenditures are recorded when liabilities are incurred and due. These statements provide a detailed short-term view of the Town's finances to assist in determining whether there will be adequate financial resources available to meet the current needs of the Town.

Because the focus of governmental funds is narrower than that of government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this

comparison between governmental funds and governmental activities. These reconciliations are presented on the page immediately following each governmental funds financial statement.

The Town of Rumford presents four columns in the governmental funds balance sheet and the governmental funds statement of revenues, expenditures and changes in fund balances. The Town's major governmental funds are the general fund, sewer extension fund and the Congress Street sidewalk fund. All other funds are shown as nonmajor and are combined in the "Other Governmental Funds" column on these statements.

The general fund is the only fund for which the Town legally adopted a budget. The Budgetary Comparison Schedule - Budgetary Basis - Budget and Actual - General Fund provides a comparison of the original and final budget and the actual expenditures for the current year.

Proprietary Funds: The Town of Rumford maintains one proprietary fund, the sewer fund. This fund is used to show activities that operate more like those of commercial enterprises. Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. Like the government-wide financial statements, proprietary fund financial statements use the accrual basis of accounting. No reconciliation is needed between the government-wide financial statements for business-type activities and the proprietary fund financial statements.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the Government-Wide and the Fund Financial Statements. The Notes to Financial Statements can be found following the Statement of Cash Flows - Proprietary Funds.

Required Supplementary Information

The basic financial statements are followed by a section of required supplementary information, which includes a Budgetary Comparison Schedule - Budgetary Basis - Budget and Actual - General Fund, a Schedule of Proportionate Share of the Net Pension Liability, a Schedule of Contributions - Pensions, a Schedule of Changes in Net OPEB Liability, a Schedule of Changes in Net OPEB Liability and Related Ratios, a Schedule of Contributions - OPEB and Notes to Required Supplementary Information.

Other Supplementary Information

Other supplementary information follows the required supplementary information. These combining and other schedules provide information in regards to nonmajor funds, capital asset activity and other detailed budgetary information for the general fund.

Government-Wide Financial Analysis

Our analysis below focuses on the net position, and changes in net position of the Town's governmental activities. The Town's total net position for governmental activities increased by \$316,663 from \$15,447,231 to \$15,763,894. For the business-type activities, the Town's total net position increased by \$19,490 from \$131,612 to \$151,102.

Unrestricted net position - the part of net position that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation, or other legal requirements - increased for the governmental activities to a balance of \$7,091,259 at the end of the fiscal year. For the business-type activities, the unrestricted net position increased to a balance of \$151,102.

Financial Analysis of the Town's Fund Statements

Governmental funds: The financial reporting focus of the Town's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information may be useful in assessing the Town's financial requirements. In particular, unassigned fund balance may serve as a useful measure of a government's financial position at the end of the year, and the net resources available for spending.

Total Nonmajor Funds	<u>\$ 2,730,482</u>	<u>\$ 2,216,027</u>

The general fund total fund balance decreased by \$178,627 over the prior fiscal year and primarily due to transfers to other funds. The sewer extension fund total fund balance increased by \$26,358 over the prior fiscal year. This increase was primarily due to the transfer in of \$50,000 offsetting the expenditures for the fiscal year. The Congress Street sidewalk total fund balance decreased by \$709,861 from the prior fiscal year. This decrease was due to capital outlay expenditures. The nonmajor fund balances increased by \$514,455 over the prior fiscal year. The largest increase was in the capital project funds of \$497,654, with significant increases in the fire department fund, parks department fund, highway fund, town hall maintenance fund and assessment valuation fund.

Proprietary funds: The Town's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

The sewer department had an increase in net position for the year of \$19,490. Last year, the sewer department had an increase in net position of \$23,551.

Budgetary Highlights

The significant differences between the original and final budget for the general fund was the use of committed fund balance.

The general fund actual revenues exceeded the budget by \$884,814. This was the result of all revenue categories being receipted in excess of budgeted amounts with the exception of charges for services.

The general fund actual expenditures were under the budget by \$2,940,724. All of the expenditure categories were under-spent after carrying forward several fund balances from the previous year with the exception of public safety and transfer to other funds.

Capital Asset and Debt Administration

Capital Assets

As of June 30, 2018, the net book value of capital assets recorded by the Town increased by \$385,261 from the prior year. The increase is the result of capital additions of \$1,016,436, less disposals net of depreciation of \$5,453 and current year depreciation expense of \$625,722.

TOWN OF RUMFORD, MAINE

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2018

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

The Town of Rumford was incorporated under the laws of the State of Maine. The Town operates under the selectmen-manager form of government and provides the following services: general government, public safety, public works, health and sanitation, public services, social services, education, and unclassified.

The Town's financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). Governments are also required to follow the pronouncements of the Financial Accounting Standards Board (FASB) issued through November 30, 1989 (when applicable) that do not conflict with or contradict GASB pronouncements. Although the Town has the option to apply FASB pronouncements issued after that date to its business-type activities and enterprise funds, the Town has chosen not to do so.

The Town's combined financial statements include all accounts and all operations of the Town. We have determined that the Town has no component units as described in GASB Statement No. 14 and amended by GASB Statements No. 39 and No. 61.

Implementation of New Accounting Standards

During the year ended June 30, 2018, the following statements of financial accounting standards issued by the Governmental Accounting Standards Board became effective:

Statement No. 75, "*Accounting and Financial Reporting for Postemployment Benefits Other than Pensions.*" The primary objective of this Statement is to improve accounting and financial reporting by state and local governments for postemployment benefits other than pensions (other postemployment benefits or OPEB). It also improves information provided by state and local governmental employers about financial support for OPEB that is provided by other entities. This Statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for all postemployment benefits (pensions and OPEB) with regard to providing decision-useful information, supporting assessments of accountability and interperiod equity, and creating additional transparency. Management has determined the impact of this Statement is not material to the financial statements.

TOWN OF RUMFORD, MAINE

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2018

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Statement No. 81, "*Irrevocable Split-Interest Agreements*". The objective of this Statement is to improve accounting and financial reporting for irrevocable split-interest agreements by providing recognition and measurement guidance for situations in which a government is a beneficiary of the agreement. Split-interest agreements are a type of giving agreement used by donors to provide resources to two or more beneficiaries, including governments. Split-interest agreements can be created through trusts or other legally enforceable agreements with characteristics that are equivalent to split-interest agreements in which a donor transfers resources to an intermediary to hold and administer for the benefit of a government and at least one other beneficiary. Examples of these types of agreements include charitable lead trusts, charitable remainder trusts, and life-interests in real estate. As such, this Statement requires that a government that receives resources pursuant to an irrevocable split-interest agreement recognize assets, liabilities, and deferred inflows of resources at the inception of the agreement. Management has determined the impact of this Statement is not material to the financial statements.

Statement No. 85, "*Omnibus 2017.*" The objective of this Statement is to address practice issues that have been identified during implementation and application of certain GASB Statements. This Statement addresses a variety of topics including issues related to blending component units, goodwill, fair value measurement and application, and postemployment benefits (pensions and other postemployment benefits [OPEB]). Management has determined the impact of this Statement is not material to the financial statements.

Statement No. 86, "*Certain Debt Extinguishment Issues.*" The primary objective of this Statement is to improve consistency in accounting and financial reporting for in-substance defeasance of debt by providing guidance for transactions in which cash and other monetary assets acquired with only existing resources - resources other than the proceeds of refunding debt - are placed in an irrevocable trust for the sole purpose of extinguishing debt. This Statement also improves accounting and financial reporting for prepaid insurance on debt that is extinguished and notes to financial statements for debt that is defeased in substance. Management has determined the impact of this Statement is not material to the financial statements.

Government-Wide and Fund Financial Statements

The Town's basic financial statements include both government-wide (reporting the Town as a whole) and fund financial statements (reporting the Town's major funds).

TOWN OF RUMFORD, MAINE

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2018

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Both the government-wide and fund financial statements categorize primary activities as either governmental or business-type. The Town's sewer fund is categorized as a business-type activity. All other activities of the Town are categorized as governmental.

In the government-wide Statement of Net Position, both the governmental and business-type activities columns are (a) presented on a consolidated basis by column, and (b) are reported on a full accrual, economic resources basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The Town's net position are reported in three parts – net investment in capital assets; restricted net position; and unrestricted net position. The Town first utilizes restricted resources to finance qualifying activities.

The government-wide Statement of Activities reports both the gross and net cost of each of the Town's functions and business-type activities (general government, protection, etc.) excluding fiduciary activities. The functions are also supported by general government revenues (property taxes, certain intergovernmental revenues, miscellaneous revenues, etc.). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants. Program revenues must be directly associated with the function or a business-type activity. Operating grants include operating-specific and discretionary (either operating or capital) grants while the capital grants column reflects capital-specific grants. For the most part, the interfund activity has been eliminated from these government-wide financial statements.

The net costs (by function) are normally covered by general revenue (taxes, certain intergovernmental revenues and charges for services, etc.).

The Town does not allocate indirect costs. All costs are charged directly to the corresponding department.

The government-wide focus is more on the sustainability of the Town as an entity and the change in the Town's net position resulting from the current year's activities.

Measurement Focus - Basic Financial Statements & Fund Financial Statements

The financial transactions of the Town are reported in the individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund balances, revenues and expenditures/expenses. The various funds are reported by generic classification within the financial statements. The following fund types are used by the Town:

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2018

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

1. Governmental Funds:

The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the Town:

Major Funds

- a. The General Fund is the general operating fund of the Town. It is used to account for all financial resources except those required to be accounted for in another fund.
- b. The Sewer Extension Fund is used to account for financial resources to be used for the acquisition or construction of major capital facilities or equipment related to sewer extension projects.
- c. The Congress Street Sidewalk Fund is used to account for financial resources to be used for the construction and equipment acquisition related to the project.

Nonmajor Funds

- d. Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes.
- e. Capital Projects Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities or equipment.
- f. Permanent Funds are used to account for assets held by the Town that are legally restricted pursuant to Title 30-A, §5653 of the Maine State Statutes, as amended, and unless otherwise specified, only earnings, and not principal, may be used for purposes that benefit the Town or its citizenry. The Town's policy for authorizing and spending investment income follows State statutes.

2. Proprietary Funds:

The focus of proprietary fund measurement is upon determination of operating income, changes in net position, financial position, and cash flows. The generally

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

accepted accounting principles applicable are those similar to businesses in the private sector. Operating revenues include charges for services, intergovernmental reimbursements and other miscellaneous fees which are a direct result of the proprietary activity. Nonoperating revenues are any revenues which are generated outside of the general proprietary activity, i.e. interest income. The following is a description of the proprietary funds of the Town:

- a. Enterprise Funds are required to be used to account for operations for which a fee is charged to external users for goods or services and the activity (a) is financed with debt that is solely secured by a pledge of net revenues, (b) has third party requirements that the cost of providing services, including capital costs, be recovered with fees and charges or (c) established fees and charges based on a pricing policy designed to recover similar costs.

The emphasis in fund financial statements is on the major funds in either the governmental or business-type activities categories. Nonmajor funds by category are summarized into a single column, GASB Statement No. 34 sets forth minimum criteria (percentage of the assets, deferred outflows of resources, liabilities, deferred inflows of resources, revenues, or expenses of either the fund category or the governmental and enterprise combined) for the determination of major funds. The nonmajor funds are combined in a column in the fund financial statements.

Basis of Accounting

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

1. Accrual

Governmental activities in the government-wide financial statements and fiduciary fund financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

2. Modified Accrual

The governmental fund financial statements are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e., both measurable and available.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

"Available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred. The exception to this general rule is that principal and interest on general obligation long-term debt, if any, is recognized when due.

Budget

The Town's policy is to adopt an annual budget for operations. The budget is presented on the modified accrual basis of accounting which is consistent with generally accepted accounting principles.

The following procedures are followed in establishing budgetary data reflected in the financial statements:

1. Early in the second half of the year the Town prepares a budget for the fiscal year beginning July 1. The operating budget includes proposed expenditures and the means of financing them.
2. A meeting of the inhabitants of the Town was called for the purpose of adopting the proposed budget after public notice of the meeting was given.
3. The budget was adopted subsequent to passage by the inhabitants of the Town.

Deposits and Investments

The Town's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

It is the Town's policy to value investments at fair value. None of the Town's investments are reported at amortized cost. For purposes of the statement of cash flows, all highly liquid investments with a maturity of three months or less when purchased are considered to be a cash equivalent. The Town Treasurer is authorized by State Statutes to invest all excess funds in the following:

- Obligations of the U.S. Government, its agencies and instrumentalities
- Certificates of deposits and other evidences of deposits at banks, savings and loan associations, and credit unions
- Repurchase agreements
- Money market mutual funds

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Receivables

Receivables include amounts due from governmental agencies. All receivables are current and therefore due within one year. Receivables are reported net of an allowance for uncollectible accounts and revenues net of uncollectibles. Allowances are reported when accounts are proven to be uncollectible. Allowances for uncollectible accounts netted with accounts receivable were \$992,924 for the year ended June 30, 2018. The allowance for uncollectible accounts is estimated to be \$0 as of June 30, 2018.

Inventories

Inventories consist of expendable supplies held for consumption and are valued at cost which approximates market, using the first-in/first-out (FIFO) method. The costs of inventories are recorded as expenditures when used (consumption method). In the general fund, inventory consists of parts, oil and gasoline.

Interfund Receivables and Payables

Transactions between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to/from other funds". While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Any residual balances outstanding between governmental activities and business-type activities are reported in the governmental-wide financial statements as "internal balances".

Transactions Between Funds

Legally authorized transfers are treated as interfund transfers and are included in the results of operations of both Governmental and Proprietary Funds.

Capital Assets

Capital assets purchased or acquired with an original cost of \$5,000 or more are reported at historical cost or estimated historical cost. Contributed assets are reported at fair market value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Infrastructure such as streets, traffic signals, and signs are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Depreciation on all assets is provided on the straight-line basis over the estimated useful lives.

TOWN OF RUMFORD, MAINE

NOTES TO FINANCIAL STATEMENTS

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The assets are valued at historical cost when available and estimated historical cost where actual invoices or budgetary data was unavailable. Donated fixed assets are valued at their estimated fair market value on the date received. All retirements have been recorded by eliminating the net carrying values.

Infrastructure assets include roads, bridges, underground pipe (other than related to independently owned utilities), traffic signals, etc. These infrastructure assets are likely to be the largest asset class of the Town. The Town has not retroactively recorded infrastructure. The capital assets for the Sewer Fund have not been included in these financial statements. The Town is working on compiling a list of these assets for inclusion in next year's financial statements.

Estimated useful lives are as follows:

Buildings and improvements	10 - 70 years
Infrastructure	20 - 50 years
Machinery and equipment	5 - 30 years
Vehicles	5 - 30 years

Long-term Obligations

The accounting treatment of long-term debt depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

All long-term debt to be repaid from governmental and business-type resources is reported as liabilities in government-wide statements. The long-term debt consists primarily of a bond payable, accrued compensated absences, net OPEB liability and net pension liability.

Long-term debt for governmental funds is not reported as liabilities in the fund financial statements. The debt proceeds are reported as other financing sources and payment of principal and interest reported as expenditures. The accounting for proprietary funds is the same in the fund statements as it is in the government-wide statements.

Compensated Absences

The Town's policies regarding vacation and sick time permit employees to accumulate earned but unused vacation and sick leave. The liability for these compensated absences is recorded as long-term debt in the government-wide financial

TOWN OF RUMFORD, MAINE

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

statements. In the fund financial statements, governmental funds report only the compensated absence liability payable from expendable available financial resources, while the proprietary funds report the liability as it is incurred. As of June 30, 2018, the Town's liability for compensated absences is \$356,828.

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Participating Local District (PLD) Consolidated Plan and additions to/deductions from the PLD Consolidated Plan's fiduciary net position have been determined on the same basis as they are reported by the PLD Consolidated Plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

OPEB

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, management received and relied on an actuarial report provided to them by the Maine Municipal Employees Health Trust (MMEHT), which determined the Town's fiduciary net position as a single employer defined benefit plan based on information provided solely by MMEHT to complete the actuarial report. Additions to/deductions from the MMEHT OPEB Plan's fiduciary net position have been determined on the same basis as they are reported by MMEHT. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms.

Net Position

Net position represents the difference between all other elements in a statement of financial position. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for those assets, and adding back unspent proceeds. Net position is reported as restricted when there are limitations imposed on its use either through enabling legislations adopted by the Town or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. Unrestricted net position is the net amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of net investment in capital assets or restricted net position.

Fund Balance

In the fund financial statements, fund balance for governmental funds is reported in classifications that comprise a hierarchy based primarily on the extent to which the Town is bound to honor constraints on the specific purpose for which amounts in the funds can be spent. Fund balance is reported in five components – nonspendable, restricted, committed, assigned and unassigned.

Nonspendable – This includes amounts that cannot be spent either because they are not in spendable form or because they are legally or contractually required to be maintained intact.

Restricted – This includes amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.

Committed – This includes amounts that can be used only for specific purposes determined by a formal action of the inhabitants of the Town. The inhabitants of the Town through Town meetings are the highest level of decision-making authority of the Town. Commitments may be established, modified, or rescinded only through a Town meeting vote.

Assigned – This includes amounts that do not meet the criteria to be classified as restricted or committed but that are intended to be used for specific purposes. The authority for assigning fund balance is expressed by the Board of Selectmen.

Unassigned – This includes all other spendable amounts. The general fund is the only fund that reports a positive unassigned fund balance amount. Other governmental funds besides the general fund can only report a negative unassigned fund balance amount.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balances are available, the Town considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the Town considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the Town meeting vote has provided otherwise in its commitment or assignment actions.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Deferred Outflows and Inflows of Resources

In addition to assets, the statement of financial position and/or balance sheet will at times report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The Town has two types of item, deferred outflows related to OPEB and deferred outflows related to pensions. These items are reported in the statement of net position.

In addition to liabilities, the statement of financial position and or balance sheet will at times report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The Town has deferred tax revenues, which arises only under a modified accrual basis of accounting that qualifies for reporting in this category. Accordingly, this item is reported in the governmental funds balance sheet. Prepaid taxes and deferred sewer taxes also qualify for reporting in this category. These items are reported in both the statements of net position and governmental funds balance sheet. Deferred inflows related to pensions qualifies for reporting in this category as well. This item is reported only in the statement of net position. All items in this category are deferred and recognized as an inflow of resources in the period that the amounts become available.

Revenue Recognition - Property Taxes - Modified Accrual Basis

The Town's property tax for the current year was levied September 20, 2017 on the assessed value listed as of April 1, 2017, for all real and personal property located in the Town. Taxes were due in two installments on October 17, 2017 and April 2, 2018. Interest on unpaid taxes commenced on October 18, 2017 and April 3, 2018, at 7% per annum.

Property tax revenues are recognized when they become available. Available includes those property tax receivables expected to be collected within sixty days after year end. The remaining receivables have been recorded as deferred revenues.

The Town is permitted by the laws of the State of Maine to levy taxes up to 105% of its net budgeted expenditures for the related fiscal period. The amount raised in excess of 100% is referred to as overlay and amounted to \$399,513 for the year ended June 30, 2018.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Tax liens are placed on real property within twelve months following the tax commitment date if taxes are delinquent. The Town has the authority to foreclose on property eighteen months after the filing of the lien if tax liens and associated costs remain unpaid.

Program Revenues

Program revenues include all directly related income items applicable to a particular program (charges to customers or applicants for goods, services, or privileges provided; operating or capital grants and contributions, including special assessments).

Operating/Nonoperating Proprietary Fund Revenues

Operating revenues consist mainly of direct revenue sources and/or charges for services applicable to that fund's ongoing operations. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Encumbrance Accounting

Encumbrances are not liabilities and, therefore, are not recorded as expenditures until receipt of material or service. For budgetary purposes, appropriations lapse at fiscal year-end. The Town does not utilize encumbrance accounting for its general fund.

Use of Estimates

During the preparation of the Town's financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets, liabilities, and disclosure of contingent items as of the date of the financial statements and the reported amounts of revenues and expenses/expenditures during the reporting period. Actual results may differ from these estimates.

NOTE 2 - DEPOSITS AND INVESTMENTS

The Town's investment policies, which follow state statutes, require that all investments be made considering the safe and sound investment of principal and preservation of capital in the overall portfolio, maintenance of sufficient liquidity to meet day-to-day operations and other cash requirements and maximization of income, within established investment risk guidelines, with consistent cash flows throughout the budgetary cycle. These investment policies apply to all Town funds.

Deposits:

Custodial credit risk for deposits is the risk that, in the event of a failure of a depository financial institution, the Town will not be able to recover its deposits. The Town does not have a policy covering custodial credit risk for deposits. However, the Town maintains deposits in qualifying financial institutions that are a member of the FDIC or NCUSIF as defined in Title 30-A, Section 5706 of the Maine Revised Statutes. At June 30, 2018, the Town's cash balance amounting to \$10,449,554 were comprised of bank deposits of \$11,211,029. Of these bank deposits, \$1,900,301 was covered by federal depository insurance and not exposed to custodial credit risk and \$9,310,728 was collateralized with securities held by the financial institution in the Town's name.

<u>Account Type</u>	<u>Bank Balance</u>
Checking accounts	\$ 245,245
Repurchase agreements	9,896,531
Savings accounts	155,056
ICS accounts	914,197
	<u>\$ 11,211,029</u>

Investments:

Custodial credit risk for investments is that, in the event of failure of the counterparty, the Town will not be able to recover the value of its investments or collateral securities that are in possession of an outside party. Currently, the Town does not have a policy for custodial credit risk for investments. The Town does not have any investments as of June 30, 2018.

Credit risk – Statutes for the State of Maine authorize the Town to invest in obligations of the U.S. Treasury, agencies and instrumentalities, other states and Canada, provided such securities are rated within the three highest grades by an approved rating service of the State of Maine, corporate stocks and bonds within statutory limits, financial institutions, mutual funds and repurchase agreements. The Town does not have an investment policy on credit risk. Generally, the Town invests excess funds in various savings accounts and insured certificates of deposit.

Interest rate risk – is the risk that changes in interest rates will adversely affect the fair value of an investment. The Town does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from fluctuations in interest rates.

NOTE 12 - ECONOMIC DEPENDENCY

The Town has two taxpayers whose property tax assessments represent a significant portion of the Town's tax base. The Catalyst Paper Operations, Inc. has an assessed value of \$95,726,659, which is 17.97% of the Town's total assessed value of \$532,689,885. For the year ended June 30, 2018, Catalyst Paper Operations, Inc.'s property tax assessment was \$2,761,714. The Rumford Falls Hydro LLC has an assessed value of \$110,400,000, which is 20.73% of the Town's total assessed value of \$532,689,885. For the year ended June 30, 2018, Rumford Falls Hydro LLC's property tax assessment was \$3,185,040.

NOTE 13 - RISK MANAGEMENT

The Town is a member of the Maine Municipal Association - Worker Compensation Trust Fund ("Fund"). The Fund was created to formulate, develop and administer a program of modified self-funding for the Fund's membership, obtain lower costs for worker's compensation coverage and develop a comprehensive loss control program. The Town pays an annual premium to the fund for its worker's compensation coverage. The Town's agreement with the Fund provides that the fund will be self-sustaining through member premiums and will provide, through commercial companies,

reinsurance contracts, individual stop loss coverage for member Town's for claims in excess of \$400,000 with an excess limit of \$2,000,000.

The Town has its liability insurance through the Kyes Agency Inc. The Town pays an annual premium for its property and liability coverage. Under the property coverage portion of the policy, coverage is provided after the \$1,000 deductible is met, to \$13,068,638. Under the general liability portion of the policy, coverage is provided after the deductible is met, to \$1,000,000 per occurrence and \$3,000,000 in total. For the law enforcement liability, the coverage is \$1,000,000 per occurrence and in total with a \$2,500 deductible. For the public official liability, the coverage is \$1,000,000 per occurrence and \$3,000,000 in total with a \$2,500 deductible. Under the employment practices liability, the coverage is \$1,000,000 per occurrence and \$3,000,000 in total with a \$2,500 deductible.

Based on the coverage provided by the insurance purchased, the Town is not aware of any material actual or potential claim liabilities which should be recorded as of June 30, 2018. There were no significant reductions in insurance coverage from that of the prior year and amounts of settlements have not exceeded insurance coverage in the past three years.

NOTE 14 - DEFINED BENEFIT PENSION PLAN

MAINE PUBLIC EMPLOYEES RETIREMENT SYSTEM

Plan Description

Town employees contribute to the Maine Public Employees Retirement System (MainePERS), a cost-sharing multiple-employer defined benefit pension plan established by the Maine State Legislature. Title 5 of the Maine Revised Statutes Annotated assigns the authority to establish and amend benefit provisions to the Participating Local District (PLD) Consolidated Plan's advisory group, which reviews the terms of the plan and periodically makes recommendations to the Legislature to amend the terms. The Maine Public Employees Retirement System issues a publicly available financial report that includes financial statements and required supplementary information for the Consolidated Plan. That report may be obtained online at www.mainebers.org or by contacting the System at (800) 451-9800.

Benefits Provided

The Maine Public Employees Retirement System provides retirement and disability benefits, annual cost-of-living adjustments and death benefits to plan members and beneficiaries. The System's retirement programs provide defined retirement

benefits based on members' average final compensation and service credit earned as of retirement. Vesting (i.e., eligibility for benefits upon reaching qualification) occurs upon the earning of five years of service credit (effective October 1, 1999, the prior ten year requirement was reduced by legislative action to five years for employees of PLDs). In some cases, vesting occurs on the earning of one year of service credit immediately preceding retirement at or after normal retirement age. For PLD members, normal retirement age is 60 or 65. The monthly benefit of members who retire before normal retirement age by virtue of having at least 25 years of service credit is reduced by a statutorily prescribed factor for each year of age that a member is below her/his normal retirement age at retirement. The System also provides disability and death benefits which are established by contract with PLD employers under applicable statutory provisions.

Upon termination of membership, members' accumulated employee contributions are refundable with interest, credited in accordance with statute. Withdrawal of accumulated contributions results in forfeiture of all benefits and membership rights. The annual rate of interest credited to members' accounts is set by the System's Board of Trustees and is currently 2.45% as of June 30, 2017.

The Town's firefighters' special plan "2C" is applicable for future service only from January 1, 2014.

Contributions

Retirement benefits are funded by contributions from members and employers and by earnings on investments. Disability and death benefits are funded by employer normal cost contributions and by investment earnings. The Town's fire and police department employees are part of special plans "2C" and "4C" and are required by union contract to contribute 5.0% of their annual salary. Although the Plan requires 8.0% and 9.0% employee contribution rates under special plans "2C" and "4C", respectively, the Town is required to contribute the difference as stipulated in the union contract. All administration, department heads and certain non-union fire and police department employees are part of regular plan "AC" and are required to contribute 8.0% of their annual salary and the Town is required to contribute at an actuarially determined rate. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded actuarial accrued liability. For the year ended June 30, 2018 employer contributions to the "2C," "4C" and "AC" plans were 10.1%, 8.4% and 9.6%, respectively, of covered payroll. The Town's contribution to the MainePERS PLD Consolidated Plan for the year ended June 30, 2018 was \$291,784, which includes an additional \$47,854 that the Town is obligated to pay based on a collective bargaining agreement.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2018, the Town reported a liability of \$1,880,499 for its proportionate share of the net pension liabilities for the plan. The net pension liabilities were measured as of June 30, 2017, and the total pension liabilities used to calculate the net pension liabilities was determined by an actuarial valuation as of that date. The Town's proportion of the net pension liabilities were based on a projection of the Town's long-term share of contributions to each pension plan relative to the projected contributions of all PLDs, actuarially determined. At June 30, 2017, the Town's proportion was 0.459289%, which was an increase of 0.01732% from its proportion measured as of June 30, 2016.

For the year ended June 30, 2018, the Town recognized net pension expense of \$91,022. At June 30, 2018, the Town reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Actuarial Methods and Assumptions

The collective total pension liability for the Plan was determined by an actuarial valuation as of June 30, 2017, using the following methods and assumptions applied to all periods included in the measurement:

Actuarial Cost Method

The Entry Age Normal actuarial funding method is used to determine costs. Under this funding method, the total employer contribution rate consists of two elements: the normal cost rate and the unfunded actuarial liability (UAL) rate.

The individual entry age normal method is used to determine liabilities. Under the individual entry age normal method, a normal cost rate is calculated for each employee. This rate is determined by taking the value, as of age at entry into the plan, of the member's projected future benefits, and dividing it by the value, also as of the member's entry age, of his or her expected future salary. The normal cost for each employee is the product of his or her pay and his or her normal cost rate. The normal cost for the group is the sum of the normal costs for all members.

Experience gains and losses, i.e., decreases or increases in liabilities and/or in assets when actual experience differs from the actuarial assumptions, affect the unfunded actuarial accrued liability.

Asset Valuation Method

The actuarial valuation employs a technique for determining the actuarial value of assets which dampens the swing in the market value. The specific technique adopted in this valuation recognizes in a given year one-third of the investment return that is different from the actuarial assumption for investment return.

NOTE 14 - DEFINED BENEFIT PENSION PLAN (CONTINUED)

Actuarial Methods and Assumptions (Continued)

Amortization

The net pension liability of the PLD Consolidated Plan is amortized on an open basis over a period of fifteen years.

Significant actuarial assumptions employed by the actuary for funding purposes as of June 30, 2017 are as follows:

Investment Rate of Return - For the PLD Plan, 6.875% per annum, compounded annually.

Salary Increases, Merit and Inflation - Members of the consolidated plan for PLDs, 2.75% to 9.00% per year.

Mortality Rates - For participating local districts, the RP2014 Total Dataset Healthy Annuitant Mortality Table, for males and females, is used. For all recipients of disability benefits, the RP2014 Total Dataset Disabled Annuitant Mortality Table, for males and females, is used.

Cost of Living Benefit Increases – 2.20% for participating local districts.

The long-term expected rate of return on pension plan assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major class of assets. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as June 30, 2017 are summarized in the following table.

Discount Rate

The discount rate used to measure the collective total pension liability was 6.875% for 2017. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that employer and non-employer entity contributions will be made at contractually required rates, actuarially determined. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The following table shows how the collective net pension liability(asset) as of June 30, 2017 would change if the discount rate used was one percentage point lower or one percentage point higher than the current rate. The current rate is 6.875% for the PLD Consolidated Plan.

Changes in net pension liability are recognized in pension expense for the year ended June 30, 2017 with the following exceptions.

Differences between Expected and Actual Experience

The difference between expected and actual experience with regard to economic or demographic factors were recognized in pension expense using a straight-line amortization method over a closed period equal to the average expected remaining service lives of active and inactive members in each plan. For 2017, this was three years for the PLD Consolidated Plan; prior to 2017, this was four years for the PLD Consolidated Plan.

Changes in Net Pension Liability

Differences between Projected and Actual Investment Earnings

Differences between projected and actual investment earnings were recognized in pension expense using a straight-line amortization method over a closed five-year period.

Changes in Assumptions

Differences due to changes in assumptions about future economic or demographic factors or other inputs were recognized in pension expense using a straight-line amortization method over a closed period equal to the average expected remaining service lives of active and inactive members in each plan. The actuarial assumptions used for the year ended June 30, 2017 valuation were based on the results of an actuarial experience study for the period of June 30, 2012 through June 30, 2015.

MAINE MUNICIPAL EMPLOYEES HEALTH TRUST

Plan Description

The Town and Town retirees contribute to the Town's OPEB Plan with the Maine Municipal Employees Health Trust (MMEHT), a single employer defined benefit plan. Contributions and membership in this Plan are voluntary and may be terminated at any time by the Town and/or the Town retirees. MMEHT is a fully funded, self-insured trust which provides benefits to municipal and quasi-municipal organizations and county governments and acts as the agent to the Town concerning administration of this Plan. Title 24-A Chapter 81 of the Maine Revised Statutes Annotated authorizes the regulation of MMEHT as a Multiple Employer Welfare Arrangement by the State of Maine Bureau of Insurance. Benefits and plans are designed and governed by MMEHT participants and are administered by a number of third-party administrators contracted by MMEHT. MMEHT issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by MMEHT at (800) 852-8300.

Benefits Provided

This Plan provides medical/prescription drug benefits during retirement to Medicare and non-Medicare retirees and their surviving spouses with varying levels of benefits determined by voluntary plan selection by the retiree as well as applicable

Medicare statutes and regulations. The Plan also provides an automatic life insurance benefit of \$2,000 to participants which includes a surviving spouse benefit for the same. The employee must meet the minimum requirement of age 55 with at least 5 years of service at retirement to be eligible for the Plan. The retiree must enroll when first eligible and continue coverage without interruption.

Medical benefits are provided for the life of the retiree and surviving spouses.

NOTE 15 - OTHER POSTEMPLOYMENT BENEFITS (CONTINUED)

Actuarial Cost Method

The Entry Age Normal Actuarial Cost Method is used to determine costs. Under this funding method, a normal cost rate is determined as a level percent of pay for each active Plan member and then summed to produce the total normal cost for this Plan. The unfunded actuarial liability is the difference between the actuarial liability and the actuarial value of assets.

For medical and pharmacy, historical claims and census records were assembled and provided through June 30, 2017. Medicare and non-Medicare eligible medical and prescription experience were analyzed. It was assumed that current enrollment distribution of benefit options would remain constant in the future for retirees. The cost was distributed based on the current covered population and the actuary's standard age curves which vary by age, gender and Medicare status. Children costs are converted to a load on the non-Medicare retirees which implicitly assumes that future retirees will have the same child distribution as current retirees.

Amortization

The total OPEB liability of this Plan is amortized on an open 30-year period. The amortization method is a level dollar amortization method.

Assumptions

The actuarial assumptions used in the January 1, 2018 actuarial valuation was based on economic, demographic and claim and expense assumptions that resulted from actuarial studies conducted for the period of December 31, 2017 and December 31, 2018.

Significant actuarial assumptions employed by the actuary for economic purposes are the assumptions that were adopted by Maine State Retirement Consolidated Plan for Participating Local District at June 30, 2016 and based on the experience study covering the period from June 30, 2012 through June 30, 2015. Claims reflect all medical and prescription plans offered based on completed incurred experience through June 30, 2017 and projected to 2018 and associate enrollment in the various programs options offered.

Annual administrative and claims adjudication expenses are assumed to be \$430 per period for the year 2018.

Claims below age 65 have been loaded 4.3% for medical and 2.8% for drugs for the cost of children enrolled as dependent of eligible retirees. This figure is based on the expected cost for children of the current retirees. This assumption implicitly assumes that future retirees will have the same child distribution as current retirees.

No covered persons under 65 are assumed to be on Medicare and participants age 65 or older are assumed to be enrolled in Medicare.

Affordable Care Act (ACA) and Healthcare Marketplace - A 2.5% load has been built in to reflect the potential impact of changes from the ACA and its impact on the marketplace and program costs. Some key items are PCORI fees, the extra government subsidies for Medicare Part D that can be enrolled in through an Employer Group Waiver Program, minimum loss ratio requirements that impacted some fully insured programs, federal premium taxes, taxes and requirements on providers in the healthcare system, dynamics of the marketplace with Exchanges, Accountable Care Organizations, etc, and the potential impact of the Excise Tax associated with high-costs employer sponsored health plans.

Medical Plan Election - employees will continue in their current medical plan for their entire career.

NOTE 15 - OTHER POSTEMPLOYMENT BENEFITS (CONTINUED)

Second-to-Die Spousal Life Insurance - not explicitly valued and was estimated to impact roughly 0.2% of the Plan's total liability.

Dependent Children - no liability assumed for dependent children's benefits.

Changes in Net OPEB Liability

Changes in net OPEB liability are recognized in OPEB expense for the year ended June 30, 2018 with the following exceptions:

Differences between Expected and Actual Experience

The difference between expected and actual experience are recognized in OPEB expense using a straight-line amortization method over a closed period equal to the average expected remaining service lives of active and inactive members in each plan. The first year is recognized as OPEB expense and the remaining years are shown as either deferred outflows of resources or deferred inflows of resources. The difference between expected and actual experience as of January 1, 2018 was \$73,537.

Changes in Assumptions

Differences due to changes in assumptions about future economic, demographic or claim and expense factors or other inputs are recognized in OPEB expense using a straight-line amortization method over a closed period equal to the average expected remaining service lives of active and inactive members in each plan. The actuarial assumptions used in the June 30, 2017 and June 30, 2016 actuarial valuations were based primarily on those used by Maine State Retirement Consolidated Plan for Participating Local District at June 30, 2016 which were based on the experience study covering the period from June 30, 2012 through June 30, 2015. The first year is recognized as OPEB expense and the remaining years are shown as either deferred outflows of resources or deferred inflows of resources. The amortization period was six years for 2018. For the fiscal year ended June 30, 2018, there were no changes in assumptions with the exception of the claim costs and retiree contributions being updated to reflect current healthcare costs.

Differences between Projected and Actual Earnings on OPEB Plan Investments

Differences between projected and actual investment earnings are recognized in OPEB expense using a straight-line amortization method over a closed five-year period. The first year is recognized as OPEB expense and the remaining years are shown as either deferred outflows of resources or deferred inflows of resources.

OPEB Plan Fiduciary Net Position

Additional financial and actuarial information with respect to this Plan can be found at the Town office at 145 Congress Street, Rumford, Maine 04276.

NOTE 16 - CONTINGENCIES

With regard to pending legal claims or any unasserted claims, it is not feasible at this time to predict or determine their outcome. Management believes, however, that settlement amounts, if any, will not have a material adverse effect on the Town's financial position.

The Town participates in various intergovernmental grant programs which may be subject to future program compliance audits by the grantors or their representatives. Accordingly, the Town's compliance with applicable grant requirement may be established at some future date. The amount, if any, of any liabilities arising from the disallowance of expenditures or ineligibility of grant revenues cannot be determined at this time.

NOTE 17 - TAX INCREMENT FINANCING AGREEMENT

On November 18, 1997, the inhabitants of the Town of Rumford approved the Industrial Park Municipal Development and Tax Increment Financing District (TIF) and adopted a development program and financial plan for the District which includes a credit enhancement agreement with the Maine Power Associates Limited Partnership (MPA) as authorized pursuant to Chapter 207 of Title 30-A of the Revised Maine Statutes as amended. The Original Assessed Valuation was \$81,000; the New Assessed Valuation added was \$113,793,776 bringing the Total Assessed Valuation to \$113,874,776. The amount of Captured Assessed Value for 2015-2018 for this Tax Increment Financing District is \$86,406,144. MPA constructed, owns and operates a natural gas fired electrical generating facility located within the District. Under the terms of the TIF and after commercial operation of the project began, the Town reimbursed MPA all taxes assessed against the project in excess of \$500,000 for the first year of commercial operation, and an amount escalated at the rate of 3 percent per year thereafter. Because this fiscal year is the 18th year of this TIF agreement, the Town of Rumford retained an amount of \$802,352 to help reduce its tax burden and reimbursed MPA an amount of \$2,482,935. The Plan was approved by the Office of Economic and Community Development on December 17, 1997. The District expires after a twenty (20) year period and at that time the Total Assessed Valuation of MPA will be included in the Town of Rumford's Total Valuation to reduce its future tax burden. The TIF agreement was amended on November 12, 1998. Ownership of the District was transferred to Rumford Power Associates Limited Partnership in 1998.

NOTE 17 - TAX INCREMENT FINANCING AGREEMENT (CONTINUED)

On February 23, 2012, at a Special Town Meeting held in the Rumford Falls Auditorium, the inhabitants of the Town of Rumford approved three separate tax increment financing districts: The Gateway Area, The Rumford Falls Entryway, and the Puiia Business Park. The Gateway Area is the Route 2 area on Lincoln Avenue and includes parts of Hancock and Waldo Streets. The Rumford Falls Entryway is the Route 2 area that includes parcels bordering the Virginia section of town up to Royal Avenue. The Puiia Business Park is a designated area adjacent to Route 108 towards the end of the Smithcrossing neighborhood just prior to the Wyman Hill Road entrance. The plan was approved by the State of Maine's Department of Economic Development on March 30, 2012. The Districts expire after a thirty-year period.

On April 19, 2012, the Board of Selectpersons voted to adopt a Credit Enhancement Agreement with Gateway Plaza, LLC for a period of five years. The Board of Selectpersons amended the Credit Enhancement Agreement with Gateway Plaza, LLC on May 15, 2014. They amended the number of years from five to twelve. The original valuation of the property was \$20,250; \$357,979 in TIF captured value was added, bringing the 2015-2016 valuation of the property to \$342,529. Gateway Plaza, LLC constructed, owns and operates the Maine Bureau of Motor Vehicles in the Gateway TIF District. The agreement stipulates that the developer will be reimbursed a percentage of the newly captured value in the specified years: 2012/2013 – 95%, 2013/2014 – 78%, 2014/2015 – 95%, 2015/2016 – 90%, 2016/2017 – 85%, 2017/2018 – 80%, 2018/2019 – 75%, 2019/2020 – 70%, 2020/2021 – 65%, 2021/2022 – 60%, 2022/2023 – 55% and 2023/2024 – 50%. Property Taxes kept by the Town are used to make improvements within the district.

NOTE 18 - RELATED PARTY TRANSACTIONS

The Town's Finance Committee Chairperson is related to the Town's attorney. The Town believes that the Finance Committee Chairperson recuses himself from legal matters related to the Town's attorney. During the fiscal year ended June 30, 2018, payments to this vendor for legal services totaled \$15,996.

The Town's Tax Collector has a business and during the fiscal year ended June 30, 2018, payments to this vendor for supplies totaled \$2,230.

NOTE 20 - COMPARATIVE DATA/RECLASSIFICATIONS

Comparative total data for the prior year have been presented in selected sections of the accompanying financial statements in order to provide an understanding of the changes in the Town's financial position and operations. Also, certain amounts presented in the prior year's data have been reclassified to be consistent with the current year's presentation.

NOTE 21 - RESTATEMENT

The net position of the governmental activities has been restated at July 1, 2017 to account for the implementation of GASB Statement No. 75 Accounting and Financial Reporting for Postemployment Benefits Other than Pensions - an amendment of GASB Statement No. 45, as amended (issued 06/04), and GASB Statement No. 57 (issued 12/09). The beginning net position was restated by \$219,907. The resulting restatement increased net position from \$15,227,324 to \$15,447,231.

Town of Rumford
Rumford, Maine

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, business-type activities, each major fund and the aggregate remaining fund information of the Town of Rumford, Maine as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the Town of Rumford, Maine's basic financial statements, and have issued our report thereon dated March 29, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Town of Rumford, Maine's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town of Rumford, Maine's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town of Rumford, Maine's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Town of Rumford, Maine's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
